EDUCATION

MSc Data Science: Thakur College of Science and Commerce, Mumbai University	Present
Bachelor of Computer Application: MGKVP State University	2022- 2024
High School & Intermediate: Devraji, Preamchand, Public, School	2019- 2021

SKILLS

Programming Languages: C and C++, JavaScript, Python

Database Languages: Mongo DB, MySQL, SQL

Frameworks: React JS, Express JS, Bootstrap, Node JS.

Version Control Tools and IDE: Git, GitHub, Visual Studio Code.

Soft Skills: Collaboration, Communication, Planning, Teamwork, Time Management, Leadership.

Experience & CERTIFICATE

Junior Game Developer Intern **Bellaluna Gaming Studio PVT.LTD | Feb 2025 – Jul 2025, Mumbai**

- As a Game Developer Intern at Bellaluna, I focus on creating immersive game experiences by designing levels and writing game functionalities. My role involves: Game Development & Programming, Level Design & Environment Creation, 3D Modeling & Asset Integration.
- Skills:** Game Programming, Game Design, Game Mechanics, Game Development, Unity, Godot, Blender, Optimizing Performance, Game Testing

Full Stack Developer Training Program **ARUDAN TECHNOLOGY PVT.LTD | Oct 2022 – Apr 2023, Uttar Pradesh**

- Proficient in HTML5, CSS3, JavaScript, and responsive design using frameworks like Bootstrap and React.js.
- Skilled in server-side programming with Node.js and Express.js, and experienced in managing both SQL (MySQL) and NoSQL (MongoDB) databases.

PROJECTS

Assassin Panda Game- [Preview](#)

This is a 2d game where panda fight to the robots to save their forest with frictional behavior like shooting guns on the robots.

Real Time Chatting App- [GitHub](#)

In this project I have created a real-time chatting app built with Socket.IO, leveraging HTML, CSS, and JavaScript for the frontend and Node.js for the backend. It enables seamless communication between users, offering instant messaging functionality with dynamic updates.

Weather App- [GitHub](#)

In this project I have created a weather app fetching real-time data from a weather API, designed with HTML, CSS, and JavaScript for a user-friendly interface. It displays current weather conditions, forecasts, and location-based updates, providing users with accurate and timely weather information. With intuitive design and seamless Integration of the API, users can easily access weather details for their desired locations.

To-Do List- [Preview](#)

In this project I have created a web application designed to help users organize their tasks efficiently. Leveraging the power of React, this project allows users to seamlessly create, read, update, and delete tasks (CRUD operations) with a clean and intuitive UI.

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- Full-Stack Developer program
